Commitment

Commitment	
By signing this document, the student, the Sending Institution and the Receiving Institution confirm that they approve the Learning Agreement and that they will comply with all the arrangements agreed by all parties. Sending and Receiving Institutions undertake to apply all the principles of the Erasmus Charter for Higher Education relating to mobility for studies (or the principles agreed in the Inter-Institutional Agreement for institutions located in Partner Countries). The Sending Institution and the student should also commit to what is set out in the Erasmus+ grant agreement. The Receiving Institution confirms that the educational components listed in Table A are in line with its course catalogue and should be available to the student. The Sending Institution commits to recognise all the credits gained at the Receiving Institution for the successfully completed educational components and to count them towards the student's degree as described in Table B. Any exceptions to this rule are documented in an annex of this Learning Agreement and agreed by all parties. The student and the Receiving Institution will communicate to the Sending Institution any problems or changes regarding the study programme, responsible persons and/or study period.

Object: Application to participate in the Erasmus+ scholarships in Brandenburg University of technology (BTU).

Dear Commission,

I wanted to try studying abroad. When I entered the university in my country, this desire did not disappear. I would like to try studying in Germany, because there is a rather unusual culture and good studying. Erasmus+ program is the best way to fulfill this desire.

The main reason why I chose this particular program is that I really like cars and everything connected with them. Brandenburg University is quite advanced and it is a place where I can get good knowledge in my specialty. Moreover, this opportunity will increase my English skills, which will improve my life and future career.

In addition to this, the opportunity to visit Cottbus, Germany for a few months can give me a lot of zeal for learning German and help to get closer to my dream. My dream is to create an engine that will outperform Toyota's JZ series engines in terms of safety margin for improvements and overall performance. Moreover, this is an ideal opportunity to make new interesting acquaintances and improve my human qualities.

Participation in this program gives me a great opportunity to gain experience that will raise my intellectual level and experience, as well as help me to better navigate my professional life. I am sure that this experience will play an important role in my life.

I am a very motivated student with good leadership spirit and I like teamwork, I have a great desire to participate in this program and have an unforgettable experience that is very important to me.

I hope to have the right profile to benefit from the Erasmus+ grant from Cottbus, Germany.

Yours sincerely,
